Education

University of Petroleum and Energy Studies, *B.Tech in CSE* Aug 2021 - Jul 2025

Experience

1. **Infosys Limited** | Systems Engineer Trainee Oct 2025 – Present
   • Successfully completed intensive generic training in Java (Basics, OOPs, DSA) and Advanced DBMS.
   • Selected for the Java React Full Stack stream after qualifying the generic training.
   • Developing proficiency in front-end development through comprehensive training.

2. **HERE Technologies** | Summer Intern Jun 2024 – Aug 2024
   • Automated web scraping pipelines using Python and Scrapy to streamline large-scale data extraction.
   • Validated and refined geolocation and store-specific metadata to ensure high-fidelity datasets for mapping services.
   • Conducted QA testing to ensure clean and reliable real estate datasets.

3. **O.N.G.C.** | Winter Intern Feb 2024 – Feb 2024
   • Leveraged Pandas and NumPy to perform advanced data mining and transformation on complex operational datasets.
   • Synthesized raw industrial data into actionable insights, identifying key operational patterns to support executive decision-making.

4. **Ministry of Defence, D.R.D.O.** | Summer Intern Jun 2023 – Jul 2023
   • Architected a responsive web interface using HTML and CSS, integrated with MongoDB NoSQL database.
   • Developed backend services and API endpoints utilizing the Node.js framework to enhance application functionality.

Projects

1. **NexusFlow | Modular Pipeline Builder**

- Architected a React "BaseNode" abstraction, reducing component code duplication through a single source of truth.
- Engineered dynamic UI logic using Regex to auto-generate node handles from user-defined text variables.
- Integrated a FastAPI backend for real-time graph analysis and Directed Acyclic Graph (DAG) validation.
- Tools: React, React Flow, Zustand, Python, FastAPI, CSS3 (2b Layout)

2. **Body – Forge (Fitness Web App)**

- Built an AI-powered fitness web app with Flask and MongoDB.
- Generated personalized workouts and meal plans using external APIs.
- Added real-time tracking of workouts and health metrics with charts.
- Tools: Python, Flask, MongoDB, Bootstrap, Chart.js

Technologies

Languages : JAVA(OOPs), SQL, TypeScript, HTML, XML ,Python
Technologies : React, MySQL, Android Studio, MongoDB, Docker, GIT, Linux, MS Power BI, MS Excel, MS Powerpoint

Certifications

1. AWS Certified Solutions Architect - Associate Jul 2025 – Jul 2028

Awards and Achievements

1. Operations Head for UPES-Hypervision in the year 2024 – 2025.
2. Digital Media Coordinator for Open Community-UPES in the year 2022 – 2023.
3. Changemaker for the batch in the year 2021 – 2022.
